Gauhati

University, the oldest and renowned University in the entire North East India, carries dreams of people of Assam. We always fell proud to be a part of this University. In my opinion, University need to make few improvements to compete with other fast growing private, central and international Universities.

1. University need to modernize its teaching pattern. It's should be more digitalized.
2. Gauhati University administrative should be more organize and transparent.
3. Library, canteen, researches laboratory should make 24hr accessible.
4. Focuses should given more on research activities of different departments. Young faculties/ researchers should encourage for research by providing them some start up grants.
5. Sports infrastructure need to improve. Few strong sport bodies should build with DSW and young sports loving faculties/officers/ employees for maintenance of those facilities and different intra and inter University sports and cultural activities.
6. University need to develop its overall infrastructure to make its campus safe, healthy and student friendly.

The University Website needs to be updated from time to time.

The university should have a closed campus. No outsider or outside vehicles should run through the campus without proper permission. The Academic Department should grow in such a manner that every academic person will get facilities of teaching and learning and also doing research with efficiently.
